

# It's Time to Secure Your SaaS Data

AppOmni solutions deliver centralized visibility, unmatched data access management, and security controls to protect data across every type of SaaS application.

Configuration Management

Threat Detection, Activity Monitoring

SaaS-to-SaaS App Management

Identity & Access Management

Governance, Risk, Compliance

## Organizations Worldwide Trust AppOmni to Secure Their SaaS Data

*“With AppOmni, we’re able to do in a couple of days what used to take us a month. It has drastically sped up our implementation timelines while adding a higher level of security to our clients’ implementations.”*

— Rex Thexton, Senior Managing Director & Global Security Lead at Accenture

### Why Choose AppOmni?

**In-Depth Coverage Across All SaaS Apps:** Get security expertise, insights, and continuous monitoring for a broad range of SaaS applications out of the box.

**Unprecedented Visibility:** Enable IT and security teams to get better visibility into user provisioning, configurations, 3rd party apps, and user access.

**Actionable Insights:** Keep up with every new security feature and vendor update, and focus on the specific actions needed to keep your SaaS data secure.

**Increased Automation:** Eliminate unnecessary tasks from your team’s workload. Use AppOmni to continuously monitor, decrease risks, and prevent configuration drift.

### Secure Any Standard or Custom SaaS App

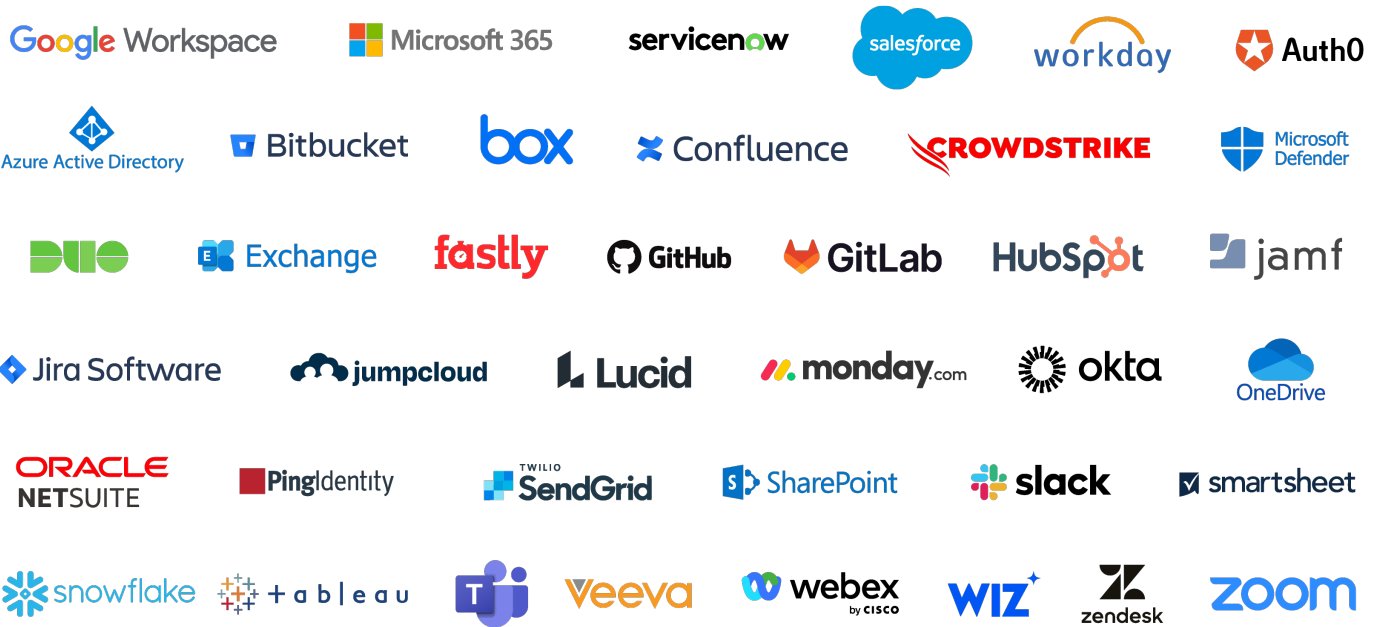

The AppOmni Developer Platform leverages the functionality and depth of the AppOmni SaaS security platform to ensure universal coverage for every SaaS app.

- Common security controls layer
- Support for any app with a normalized control framework
- Ability to expand authentication, UI, and APIs to create custom monitored service types and ingest posture data
- Automatic support for policies, compliance mapping, reports, and more
- Rapid integration with the AppOmni platform

Our comprehensive platform prevents security gaps and data exposure across your entire SaaS environment and SaaS-to-SaaS connections.

From Atlassian to Zoom, AppOmni has you covered.

We protect all of these SaaS applications, plus all standard and custom SaaS apps are supported by the AppOmni Developer Platform.

## Why Customers Love AppOmni

*"AppOmni is a great tool for security posture management and ensures that our customer data is secure because we know what's happening in our applications from a configuration and posture perspective."*

**Binoo Joseph, Chief Information & Technology Officer, EMAAR Group**

*"Our CMO inadvertently shared a Box link publicly on a Friday night. I got an AppOmni alert and was able to fix the issue quickly. I would have never known that this happened without AppOmni."*

**Security leader, financial services company**

*"When we first engaged with you, you said 'We want to be your favorite security vendor.' Now that I'm one year in, I can honestly say you're not just our favorite security vendor, but our favorite vendor PERIOD."*

**Security leader, technology company**
